

**MONDAY, NOVEMBER 4, 2013**  
**DUNFORD AUDITORIUM**  
**BROWNING 101**  
**12:00 -1:00 PM**  
**(EVERYONE IS WELCOME)**

## ***SUCCEEDING AS A WOMAN IN STEM***

**Guest speaker Karen Purcell** is a woman of many strengths. She is most recognized for her work as an electrical engineer and the founder, owner, and president of PK Electrical, an electrical engineering, design and consulting firm. She wrote a book entitled *Unlocking Your Brilliance* that inspires and motivates women everywhere to pursue careers in the STEM field (Science, Technology, Engineering, and Math). She is a recipient of many prestigious awards in recognition of her work. This forum will provide insights on what exactly STEM is and how to be successful in the field of STEM despite the hurdles women face as a minority.

How to overcome  
the hurdles of  
pursuing a STEM  
career

---

Strategies used for  
success

---

How to maintain  
your confidence

---

Become exposed to  
professional  
opportunities in  
STEM

---

Hear it straight from  
the author of the  
book *Unlocking  
Your Brilliance*
